

Fall Asleep

I fear a change's to be near
Reason past will be cleared
For it's nothing
For it's nothing

I wish a new sun to come
Maybe aliens or more
For it's nothing
Here is nothing

How many days, how many dates
And all you get is still the same
I've got another question here
Is there something coming near?

And all the times you felt alive
How many times did you realize it?
I've got another question here
Is there something coming near?

I fear a change's to be near
And I'm waiting down here
In this nothing
In this nothing

How many days, how many dates
And all you get is still the same
I've got another question here
Is there someone coming near?

I'm giving up to dreams and lights
The nightmares and the lullabies
I fall asleep my dear
Just fall asleep my dear
I give up.
