

I was There

Deny your past
Because you can , because you can
Don't turn your head
Making the same mistakes I made

I was there
Is there somebody else I can help?

Get up and shout
Because you can , because you can
Put down the guns
And any weapon to the ground

I was there
Is there somebody else I can help?

What's the future you're gonna give your sons?
What's the future for you new born son?

The wall fell down
In Berlin,1989
So many walls
Have yet to fall
Because we can

I was there
