

## Vanilla Scent

Would like to smell the world  
through her vanilla scent  
I'd lie myself if I said  
I need something else

Words are not that grand, don't you know?  
Promises have left  
Don't return with a kiss

One single night should not be fair  
to fall in love  
Tell me it is not too late  
to just ignore

The fool tragical movements of the clouds  
above our sight  
They just don't know they'll have to rain  
and fall apart

Words are not that grand, don't you know?  
Promises have left  
Don't return with a kiss
