

Words Forgetting, Words Forgot

Rings, diamonds and pearls
Any lost memory
I will put in a box
As long as no one sees

I will never forgive myself
I will never forgive myself

Let me dream about her
To remember how she was
She'll never get old
For ideals never grow old

Please, remember me
Don't forget all we were
For it was me and you
Lost in the place of wrongs

I will never forget to mess
I will never forget to mess

You with sunshine and stars
You with any song I know
For I knew you as love
But I don't know what I was

Oh words, I forget.
I let you fade away, again.
